Department of Information Technology

About Our Department

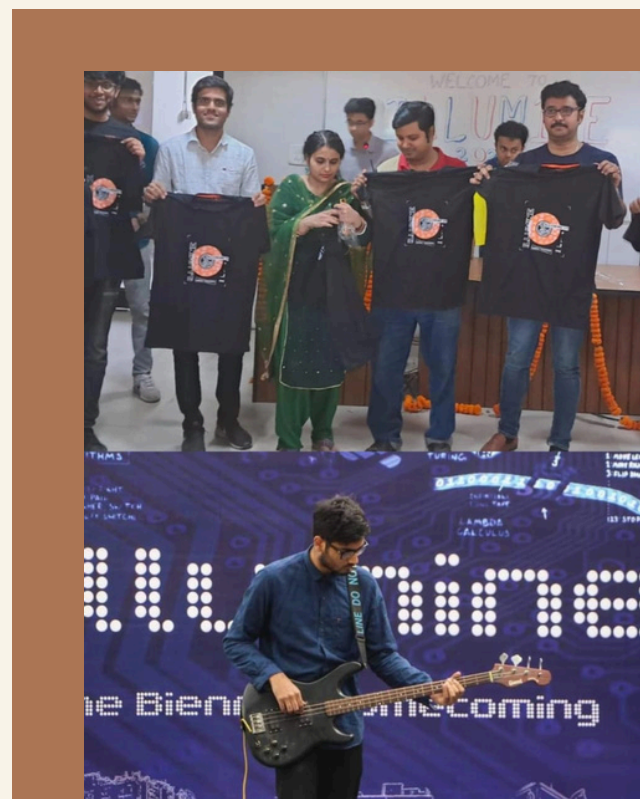

The Department of Information Technology at Jadavpur University, established in 2001, offers a Bachelor of Engineering with an intake of 90 students on an average and Masters degree in Information Technology earlier known as Masters in Software Engineering with an intake of 25 students. The department emphasizes on advanced curriculum, innovation, and real-world problem-solving. The department's vision is to provide young undergraduate and postgraduate students a responsive research environment and quality education in Information Technology to contribute to education, industry and society at large. Over the years, it has seen a high success rate in internships and job placements (81% average), and competitive exams like GATE and CAT (80% average). The Code Club JUSL, founded in 2018, promotes coding culture and peer programming across the departments. The undergraduate program is NBA-accredited (valid until June 2026).

About illumine

Illumine, a biennial event hosted by the Department of Information Technology at Jadavpur University, is a distinguished platform for fostering connections and celebrating the department's legacy. This gathering brings together alumni, current students, and faculty members to commemorate the department's achievements, and foster a sense of bonding and collaboration amongst the department students and alumni, thereby bridging the gap between the industry and academia. Illumine offers alumni a unique opportunity to reconnect with former classmates, professors, mentors, and colleagues.

Vision of illumine

Illumine's focus on celebrating the department's past and future makes it a significant and anticipated event for all involved. The gathering serves as a testament to the department's enduring legacy and its commitment to nurturing the next generation of IT professionals. Current students benefit from the insights and guidance of seasoned alumni, exploring potential career paths and gaining valuable perspectives from industry leaders.

Goodwill Messages

"It is a matter of great pleasure that the Reunion program of the Department of Information Technology is being organized. I extend my warmest greetings and best wishes to all alumni, current students, faculty members, and staff. Established in 2001, the department of Information Technology is the youngest within the Faculty of Engineering and Technology. Despite its relatively short history, it has garnered significant recognition, culminating in recent NBA accreditation. This prestigious accreditation places the department on par with other leading institutions worldwide, making it a pioneer within our university. To maintain this standard, we seek the continued support and guidance of our alumni.

With a strong emphasis on research and project-oriented activities, the department has a rich history of producing successful graduates. The alumni have achieved significant success in their careers, securing internships, pursuing higher studies at renowned universities worldwide, and establishing themselves as entrepreneurs. We hope that with the support of the alumni, the department will obtain several recognitions and reach new heights of excellence in the coming years. We wish the reunion program a great success."

Dr. Rajib Bandyopadhyay
(Dean FET)

Recent activities of the University in last 2 years

#Groups and Clubs

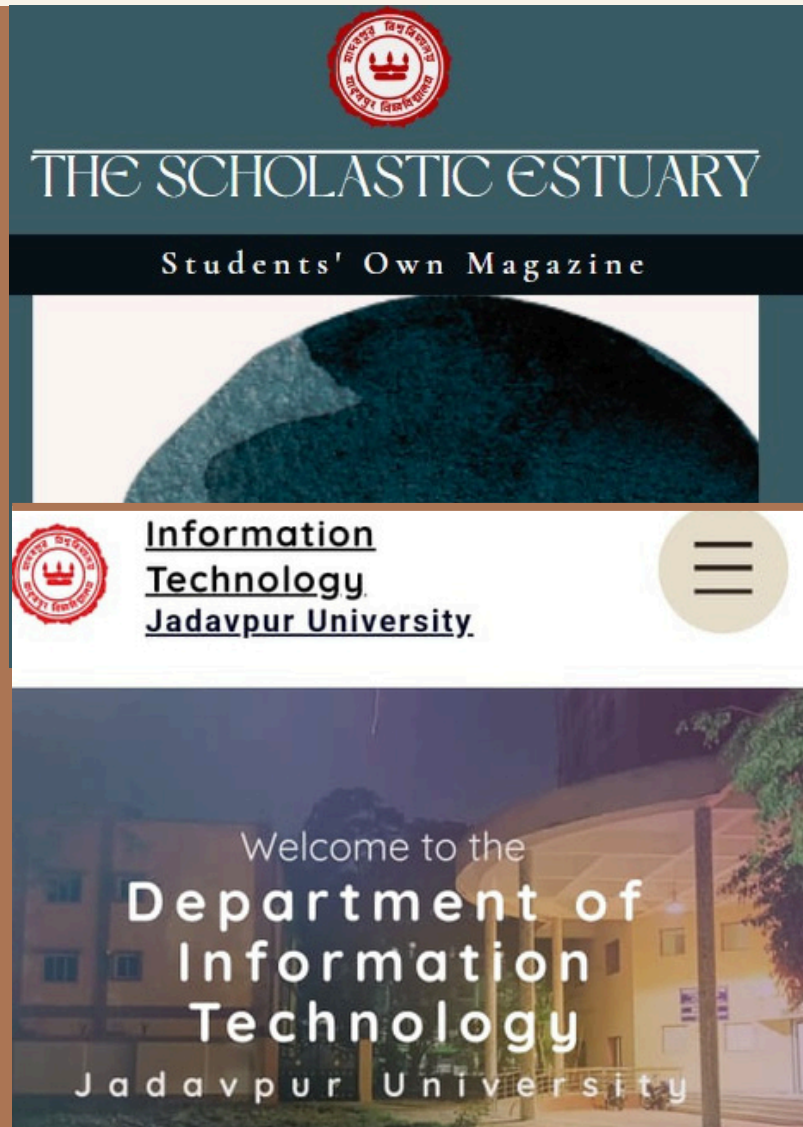

Code Club JUSL, established in 2018, is dedicated to fostering a collaborative environment for students to develop their coding skills and engage with the latest technologies. Through workshops, coding competitions, and technical sessions, the club emphasizes problem-solving, algorithmic thinking, and practical application of programming. It serves as a hub for innovation, continuous learning, and technical excellence.

Team JU ACM is a student chapter of the ACM started in 2022, dedicated to fostering technical excellence and innovation at Jadavpur University. We offer workshops, webinars, coding competitions, mentorship, and networking opportunities for students interested in computer science. Join us to learn, grow, and contribute to the future of computing.

#Achievement Corner

Jadavpur University received positive feedback from the National Assessment and Accreditation Council (NAAC), highlighting its overall educational quality and low fee structure, which underscores its commitment to accessible and affordable education. The department earned accreditation from the National Board of Accreditation (NBA) for the next two years, affirming its adherence to industry standards. Additionally, the department is preparing to publish its annual magazine, featuring contributions from students and faculty that showcase the creativity and talent within the IT community.

#Teachers Day Celebration

We celebrated Teachers' Day for the first time, marking a significant event for us. Despite many teachers boycotting the celebration in solidarity with the recent RG Kar rape and murder case, we maintained the dignity of the movement by choosing to wear black clothing during the event.

#Tragedies

Swapnadeep Kundu, a first-year undergraduate student at Jadavpur University was suspected to had jumped to his death late on Wednesday, 9th August 2024, around two hours after he told his mother that he was feeling “very scared” and pleaded with her to take him home. Swapnadeep was in room number 68 on the second floor of the A-2 block of Jadavpur University Main Hostel on Prince Gulam Hussain Shah Road. He was found profusely bleeding and taken to the KPC Medical College and Hospital, where he died a few hours later. The Faculty of Engineering and Technology Students' Union (F.E.T.S.U.) expresses its deep sorrow over the tragic incident that occurred on our campus on August 9, 2023. We stand united in our condemnation of ragging and demand a swift and thorough investigation into the matter. We are committed to fostering a safe and inclusive campus environment and have taken steps to prevent future occurrences of ragging. We extend our condolences to the family and friends of Swapnadeep, and we remain hopeful that justice will be served. In addition, we mourn the loss of Mr. Kamal, a valued member of our IT department. His contributions to the university shall always remain invaluable.

#Involvements in Social Activities

Amenity Centre Reopening: Following extensive negotiations and advocacy efforts, the Amenity Centre, a campus store that had been closed since 2020, has successfully reopened and become operational. This reopening is a significant milestone in our ongoing efforts to address the needs of our Salt Lake campus community.

While the Amenity Centre has reopened, we continue to advocate for the implementation of 17 key demands aimed at improving the campus experience. These demands encompass various aspects of student life, including academic facilities, infrastructure, and services.

Support for Junior Doctors: In solidarity with the junior doctors protesting the RG KAR rape and murder case, Jadavpur University has provided daily food supplies to those stationed in front of Swasthya Bhawan. This gesture demonstrates our commitment to supporting healthcare professionals and advocating for justice.

#Fest Corner

Jadavpur University hosted a series of successful events in 2024, showcasing the university's vibrant campus life. The CIIPPUS in February saw the IT department achieve significant success, winning 8 trophies and securing a hat-trick in one-day events. The Srijan techno-management fest in March fostered creativity and innovation among engineering students. Sanskriti, the cultural and artistic festival, showcased diverse performances from both campuses. In sports, the IT department excelled at Arena, winning first place in basketball and second place in football. The department also formed new dance and singing teams for the Student Performance event at Sanskriti.

#Placements_Corner

The Department of Information Technology achieved a remarkable 95.3% placement rate for the Batch of 2023, with 81 out of 85 students securing employment. The average CTC (Cost to Company) was ₹22.34 LPA, and the median CTC was ₹20 LPA. The highest off-campus package was ₹57 LPA (*Enterpret*), while the highest on-campus offer was ₹48 LPA (*Amazon*). Major recruiters included *Amazon* and *Wells Fargo*. Sector-wise, 46% of placements were in software, 24% in fintech, 13% in consultancy, and 17% in other fields. A significant number of graduates also pursued higher studies at prestigious institutions like IIT Kharagpur, IIT Delhi, IIM Indore, IIM Calcutta and many more. In 2024, despite the global recession, the department maintained a strong placement record, with 96% of students placed and an average CTC of ₹19.47 LPA. The median CTC was ₹13.65 LPA, and the highest off-campus offer was recorded as a whopping ₹1.4 crore (*international*).
